Congratulation Prof Dr Maznah Dahlui on your conferment as a Fellow of the Academy of Science Malaysia

Published 5 May 2021

The Department would like to congratulate Prof Dr [Maznah Dahlui](#) on being conferred the Fellow of the Academy of
Science Malaysia.

Professor Dr Maznah Dahlui is a Public Health Medicine Specialist who had served for several years with the Ministry of Health, Malaysia and was an Entrepreneur before becoming an academician at the University of Malaya in 2003. Her speciality is health economics, with a major interest in the evaluation of health programs. She had conducted many economic evaluations of the country's policies and programs, working with various ministries in Malaysia such as the Ministry of Health, the Ministry of Labor and the Prime Minister's Department. She has good linkages with international institutions such as the UNFPA, UNESCO, World Bank, the WHO which have led to several consultancy projects centred on the evaluation and monitoring of health programs.

Maznah's research interest extends to cancer screening, infectious diseases such as HIV and Hepatitis C, adolescents health and obesity prevention; applying the economic evaluation approaches. She has been actively engaging NGOs (such as Breast Cancer Welfare Society and MAKNA) and the communities (the urban poor community and rural populations) for breast cancer screening and combating chronic diseases such as hypertension and diabetes. Her international research experiences include working with collaborators from Sanger Institute, University Cambridge, United Kingdom on the Salt Reduction Study, Kirby Institute, University of New South Wales, Australia on Return of Investment of Harm Reduction Program, University of Usmanu Danfodiya, Sokoto, Nigeria on sexual reproductive health issues under the auspices of the Africa-Asia Development University Network (AADUN), and several others.

CONGRATULATIONS

PROFESSOR DR. KHOO EE MING

BU Roles & Responsibilities

Review proposals

- Required funding from FOM
- Involve business collaborations with outside partners
- Require space from FOM
- Research projects that involve the acquisition of large machines that may later require FOM to manage eg PRISMA
- Fund raising exercise

Evaluate & analyse applications

- BU will evaluate the applications, provide our analysis and options which will help the FOM management in making the decision
